Flávia Dias
Web Developer

Leeds, England • 07588847788 • flaviadias97@yahoo.com • [LinkedIn](#) • [GitHub](#)

I am a former healthcare professional transitioning into tech, focusing on web development after completing a rigorous BootCamp and various Udemy courses. I bring a unique blend of analytical skills and a passion for tech, aiming to leverage my background to develop user-centric applications. My goal is to create innovative solutions that enhance user experiences and develop attractive, functional websites, backed by a proven track record in delivering high-quality projects efficiently. I am also bilingual - English (Advanced), Portuguese (Native)

PROFESSIONAL EXPERIENCE

NHS Trust   **Leeds, England**
Clinical   *07/2020– 04/2024*

- Attention to detail: Both roles require meticulous attention to detail to ensure accuracy and quality. In Web development, this translates to writing clean, error-free codes and maintaining functional websites.
- Effective communication skills: Both roles involve effective communication with colleagues and clients. In web development, clear communication is crucial for understanding project requirements and collaboration with team members.
- Trained new staff on clinical procedures: and best practices resulting in a 15% decrease in procedure errors.

NHS Trust   **Leeds, England**
Healthcare   *04/2019–08/2020*

- Problem-solving: both roles involve problem-solving abilities. Healthcare workers must adapt to various client needs and situations, similar to how web developers troubleshoot issues to solve technical challenges.
- Compassion and empathy: Both roles require empathy and compassion towards clients or users. Healthcare workers provide emotional support, while web developers create user-friendly experiences that meet the user needs.

- Administered daily patient care: to a diverse population, resulting in a 95% patient satisfaction rate.

Camp Thailand   **Chiang Mai, Thailand**
English, Volunteer   *06/2019–07/2019*

- Designed and delivered interactive English lessons: to over 100 students increasing language proficiency scores by 35%
- Developed engaging curriculum material: tailored to various age groups, enhancing student engagement and participation by 40%
- Organised cultural exchange activities: that fostered cross-cultural understanding and improved student confidence in using English by 25%

St Gemma's Hospice   **Leeds, England**
Retail, Volunteer   *10/2018 – 05/2019*

- Attention to user experience: fundraising campaigns focused on engaging donors and providing positive user-centric approaches translate well into web development, where creating intuitive and user-friendly interfaces is essential for optimising user experience.
- Managed inventory and restocked shelves: ensuring product availability and increasing sales by 25%
- Provided compassionate customer service: to hospice visitors, enhancing their shopping experience and boosting donation contributions by 20%
